PLATFORM

Nordic Bioplastic Conference – 24th of April 2025

COMPOSTABLE
BY DESIGN

PLATFORM

**A cross-value chain platform for
collaboration and innovation in
compostable packaging and products**

Vision

Build a future where **appropriate** compostable packaging and products are widely accepted and effectively recycled at scale across Europe, supporting sustainable bio-waste management and the circular economy

Our Objectives

Promoting Circular Economy

Supporting the circular economy by introducing compostable items for suitable applications

Unlock Recycling Routes

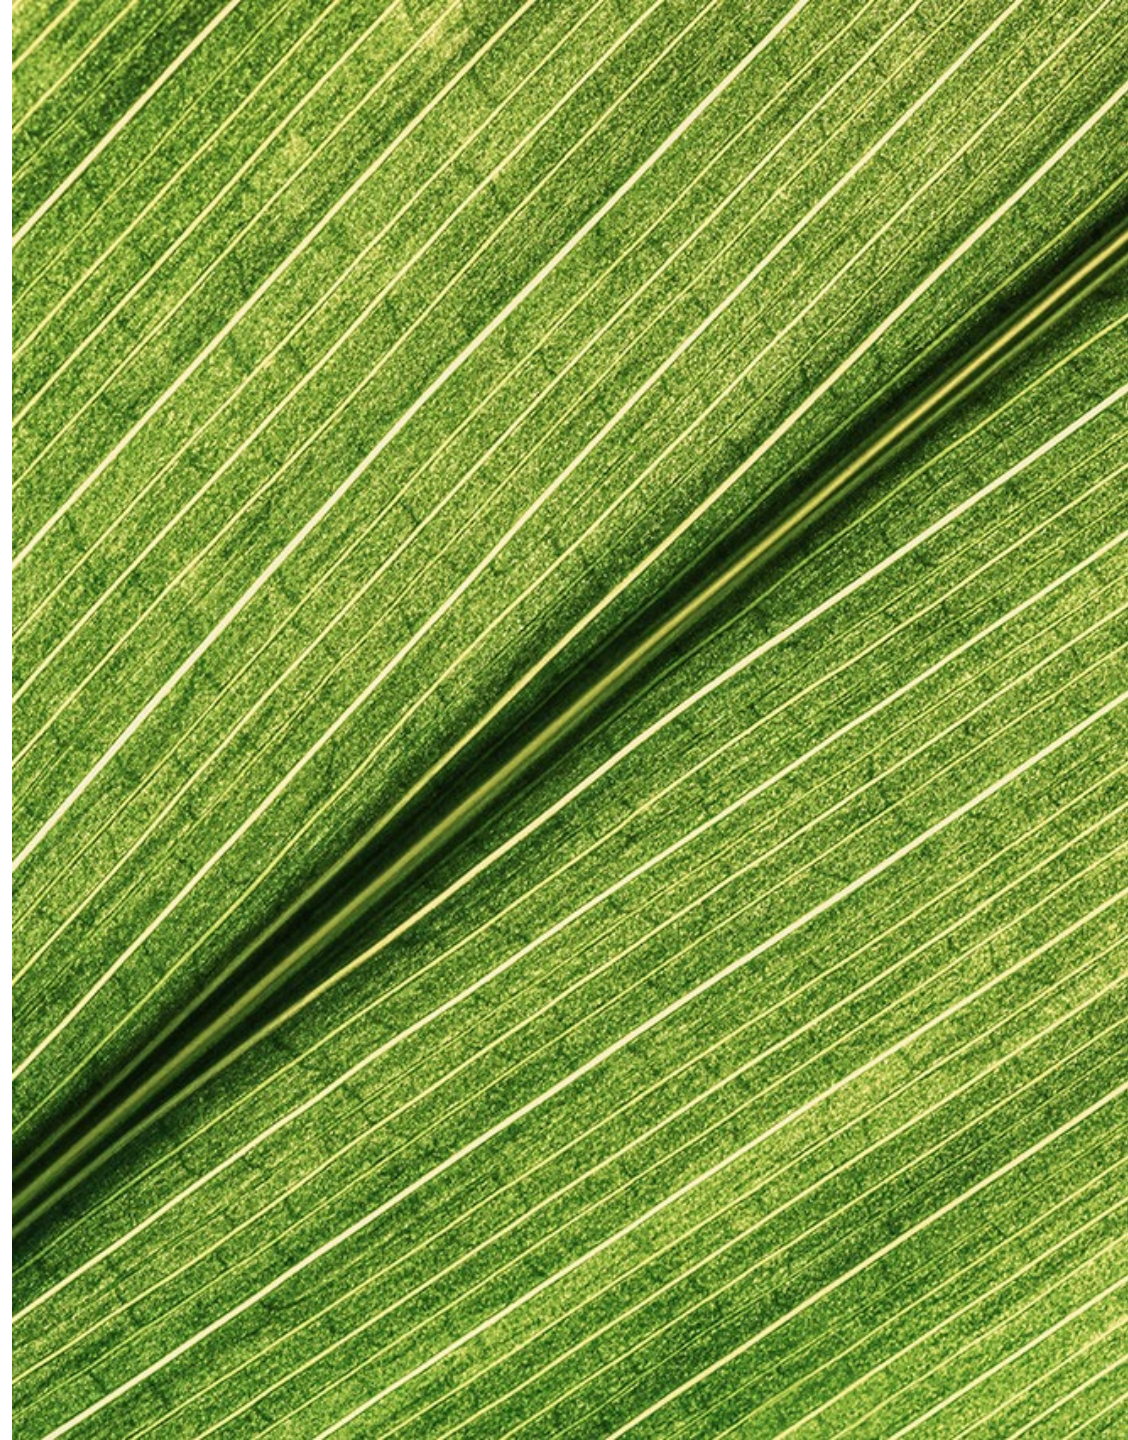

Finding technical and financial pathways for compostable items to be recycled by appropriate bio-waste treatment facilities

Foster Collaboration and Innovation

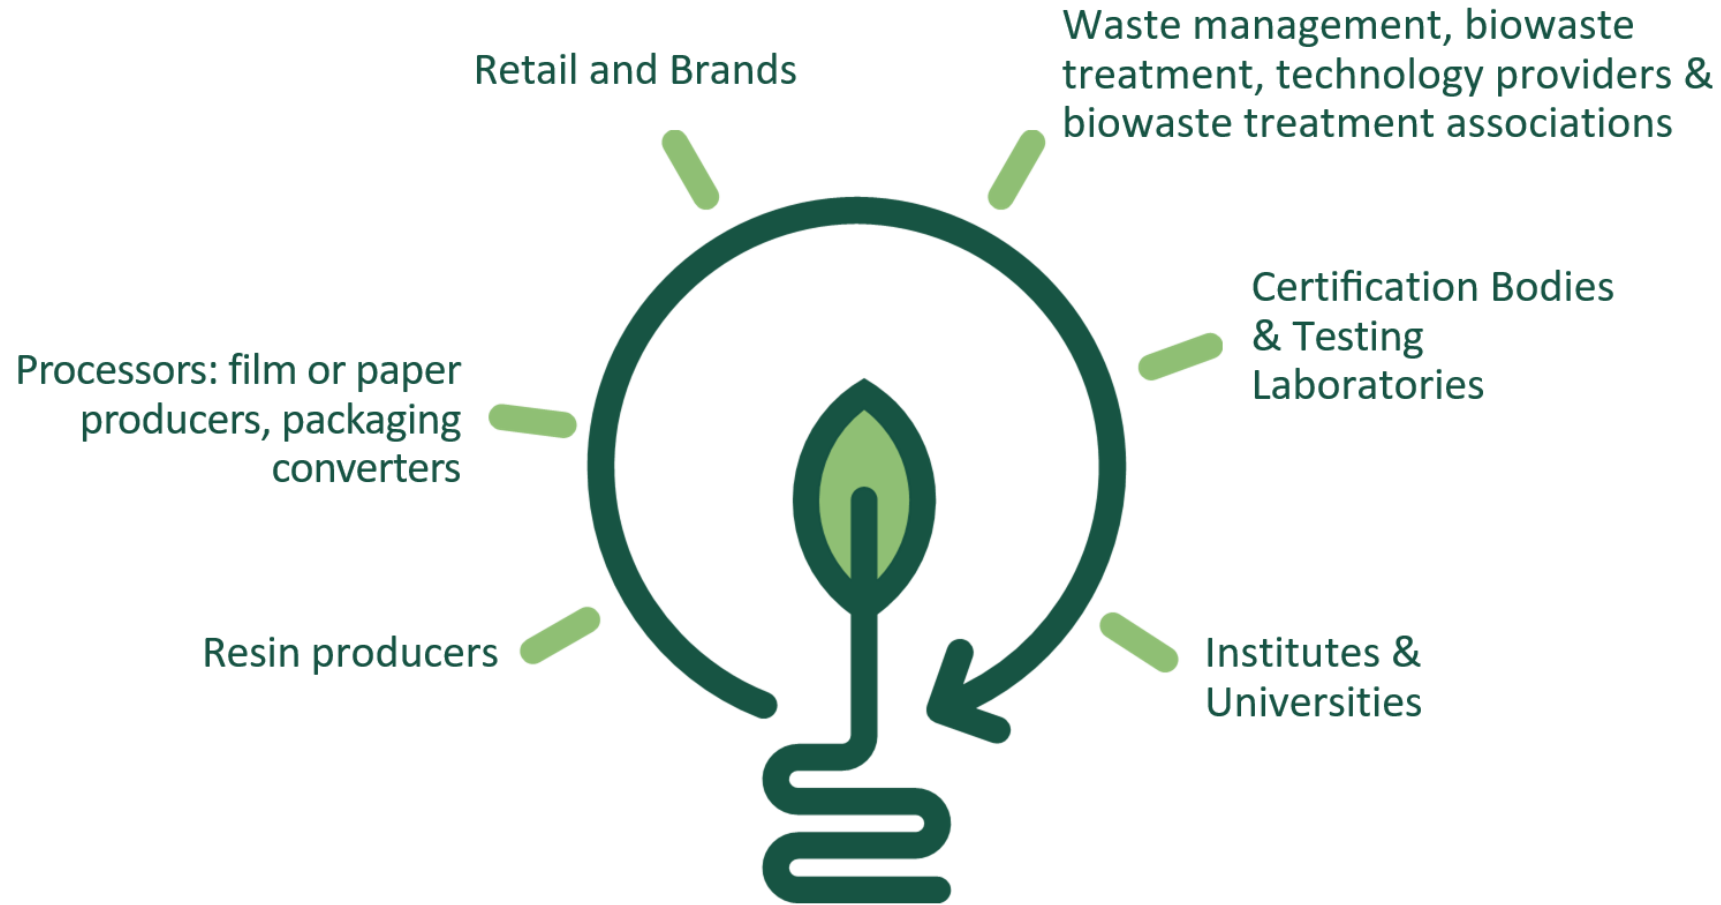

Serve as a hub for collaboration and innovation

Build Awareness and Educate

Providing guidelines for effective labeling and communication of compostable products to enhance understanding and encouraging responsible use

Our Sponsors

Compostable by Design Platform

Effective solutions require collective effort

KEY STAKEHOLDERS

BOARD OF DIRECTORS

Chair
Afsaneh Nabifar
BASF

Vice Chair
Henk Vooijs
Novamont

Treasurer
John Leppers
Climate Neutral Group -
Anthesis

SECRETARIAT

Platform Manager
Claudia Amos

Platform Administrator
Rowan Murray

STEERING GROUP

RESIN PRODUCERS

Biotec

Arnaud Leroy

TotalEnergies Corbion

Maelenn Ravard

PROCESSORS & CONVERTERS

Futamura

Lucy Cowton

Stora Enso

Maria Holopainen

BRANDS & RETAILERS

Nescafé Dolce Gusto

Susanne Kulhanek

Pepsico

Astrid Torres

ORGANIC WASTE MANAGEMENT

REA

Emily Nichols

CIC

Marco Ricci

OTHERS

TÜV AUSTRIA

Philippe Dewolfs

Normec OWS

Bruno de Wilde

Some of our Sponsors and Supporters

How we work: Work Streams

WS1

Field testing protocol

Aim: Increase composter and waste manager confidence and acceptance

WS2

Design guidelines

Aim: Provide guidelines on designing for compostability

WS3

Collection & recycling guidelines

Aim: Understanding status of infrastructure for organic recycling and future potential

WS4

Innovation

Aim: Explore technologies and processes that increase the sorting and recycling of compostable materials

WS5

Communication

Aim: Effectively communicate the scope and deliverables to different stakeholders

Science-based

Solution-oriented

Recognising that effective solutions require collective effort, the Platform unites leaders from all segments of the compostable materials value chain.

Thank you!
