

Come join us for the

POLYMER25 CONFERENCE

**09.30 AM
WEDNESDAY 05 | 11 | 25**

We invite you to join POLYMER25, a technical conference that takes sustainability strategies all the way to solution mode! This year, we are proud to present new findings and innovative solutions as well as showing how leading companies are working to meet ambitious strategic goals.

POLYMER25 offers you a chance to enrich your network with peers spanning the full polymer value chain – from raw materials, design and production to collection, sorting and recycling.

Furthermore, the goal of the conference is to inspire your own organisation with new and valuable knowledge and solutions focusing on impact and implementation.

Who are you

If you're a manager or specialist on R&D, CSR or innovation, POLYMER25 is relevant for you. The conference has a focus on tangible solutions viewed from both a technical and business perspective.

Come to Aarhus

Polymer25 is taking place on 5 November, 2025, at Danish Technological Institute, Kongsvang Allé 29 in Aarhus, Denmark - building 1, The Conference Room.

Tickets, pricing and early birds

Early bird price before
20 September - 750 DKK.

Standard price from
20 September - 1.000 DKK.

Last chance to buy your ticket
is 30 October.

Visit polymerx.dk or scan the
code to get your ticket.

PROGRAMME

- 09:30 **Check-in, breakfast, and networking**
- 10:00 **Welcome**
Lars Haahr Jepsen, Project Director, Danish Technological Institute
- 10:10 **Resilience Meets Circularity: How a Changing World Shapes Sustainable Polymers**
Simon Frølich, Technology Director, Danish Technological Institute & Per Sigaard Christensen, Business Manager, Danish Technological Institute
- 10:40 **Advanced Recycling Technologies at Trinseo from Invention to Global Scale**
Pascal Lakeman, Research Fellow, Trinseo
- 11:05 **Networking**
- 11:50 **Material Innovation and Legislation: Navigating Change in the Textile Industry**
Kristina Vigen, Chief Sustainability Officer, Sports Group Denmark A/S
- 12:20 **Lunch break and networking**
- 13:20 **Plastic Recycling from End-of-Life Vehicles: Overcoming Challenges via Value Chain Partnership**
Vibeke Jacobsen, Product Area Manager, Plastic and Composites, STENA RECYCLING A/S, Ole Møller Andersen, CEO, Ørbæk Autogenbrug and Nemdele & Frank Toenniges, Director Engineering BPI, Head of Sustainable Product Design, Adient
- 13:50 **Recycling, Biobased and CCU-based Polypropylene and Polyethylene – New Solutions and Opportunities**
Annika Huomo, Business Development Manager, Renewable and Bio-based Polyolefins, Borealis Polymers Oy
- 14:15 **Networking**
- 14:45 **Mass Balancing and Traceability Along Complex Supply Chains**
Peter Hawighorst, Program Manager, ISCC System GmbH
- 15:10 **Closing session**
Lars Haahr Jepsen, Project Director, Danish Technological Institute
- 15:15 **Networking and farewell**
